Statement of Purpose

The CMPA will:

- Conduct its affairs with honesty and integrity;
- Demonstrate its commitment to the:
 - Viability of the industry
 - Protection of the environment
 - Community in which it exists; and
- Vigorously pursue with the Government and others issues of widespread concern to Members;
- Demonstrate leadership and a sense of direction for the industry;
- Act as a resource and provide support to Members through the delivery of cost savings and assistance in complying with legal obligations;
- Foster unity and cooperation between Members and others; and
- Promote continuous improvement through education, training and other activities.

Industry Representation

Statement of Membership

Evolving from industry pressure for a peer network of independent quarrying companies, the CMPA now has an established membership base representing businesses involved in the extraction, processing or otherwise of hard rock, gravel, sand, masonry, clay, lime, soil, gypsum or recycling and includes industry consultants, suppliers and the industry workforce.

Industry Representation
